

FOGG HVAC

GETTING TO KNOW A GREAT LOCAL BUSINESS

My name is Stanley Fogg. I was born in Louisburg, NC and I spent my entire youth in Louisburg working on a farm until I was 18 years old. After graduation, I moved to Raleigh, where I met my beloved wife, Twana Fogg. We have two beautiful children, Darian, a senior in college, and Cierra, a sophomore in high school. We currently reside in the Apex area.

I started working at a very early age. I grew up with less than most, but I was raised to work hard and to treat others as I would like to be treated. I begin working at my first heating and air conditioning company with Southern Piping years ago as a helper and I was promoted to shop manager where I made duct work. The company offered an HVAC apprenticeship through Wake Tech Community College. During my time working there, I attended night classes two to three times a week for almost three years. In addition, I attended service classes for two more years at Wake Tech. After completing my education, I pursued my HVAC contractor licenses. Needless to say, it was not easy, but I was determined. In 1999, I received my HVAC contractor licenses. I continued taking business classes and workshops to help develop my skills to open up my own company.

After a few attempts, I went into business for myself in 2006. In 2008,

I founded Fogg HVAC, INC. with God's help and prayers. I am the first person in my family to independently own my own business. I love working and helping other people. I truly believe this company is not only a means to support my family, but is also a tool to minister to the community and my employees. We are a unique small town company with a wealth of experience to solve problems. Our mission is to provide concise and noteworthy customer service while providing personal attention to our customers.

Over 25 years, God has been very good to me and our company. I have received Silver and Bronze Sales Recognition from American Standard, Outstanding Sales from Bryant Dealer of Southern Region and Angie's List Super Service Awards 2017 and 2018.

We continue to pride ourselves in our reputation and customer relationships by being trustworthy and taking pride in all work performed. I have enjoyed my journey in the business and love coming to work each day. I look forward to meeting people and sharing my gift as I embark on new customers and interacting with my longtime customers. I am thankful for the opportunity to do what I love. If I have not met you, and hopefully I will in the near future, here are a few helpful tips I would like to share for maintaining your heating and air condition systems:

Change your filters within 30-40 days
Make sure your return is not restricted
Make sure the outdoor unit is clear and not restricted
Service all units twice a year (cooling and heating seasons)

Fogg HVAC, Inc. (family-owned and we love helping people)
